

The Waking Dream: Signs, Symbols, and Synchronicities

A Workshop with Michele Anderson

Dreaming isn't limited to our sleeping hours. Dreaming is moment-to-moment perception. Day and night we receive messages and guidance - we just need to recognize them.

We will work together on signs and synchronicities through playful visual and experiential exercises, even some light chanting and drumming!

~ Observation Power Tools: Tracking Signs

Recognize unusual encounters and events as meaningful signs.

~ Characteristics of a Sign: Language of Intuition

Learn a language rich with imagery and symbolism. Signs are interactive, live feedback from the Divine on life direction.

~ Sign Interpretation: Synthesis

Decode their meaning for greater self-awareness and more effective life decisions.
